

HWMP Rulemaking Calendar Descriptions for 2005
June 2, 2005

Reg No.	Package No.	Subject	Description	Branch Chief	Staff Assigned	Status
1	R-03-17	CAMU	This regulation package addresses the nonRCRA CAMU's and the optional provisions within the federal CAMU, in particular, the availability of the offsite disposal for CAMU eligible waste.	Sherri Lehman	Ed Nieto Li Tang	Workshops tentatively scheduled for July, 2005. Will share draft with CUPA in June 2005.
2	R-05-03	Perchlorate Materials Management Standards (emerg.)	AB 826 (2003) requirement for DTSC to adopt regulations for Best Management Practices for Perchlorate materials.	Sherri Lehman	Ed Nieto William Beckman Evelia Rodriguez	Completing draft report and working on Best Management Practices.
3	R-01-12	Management Requirements for Hazardous Wastes Containing Precious Metals	This rule making will establish consistency with existing federal hazardous waste requirements at precious metal recovery furnace facilities. This is being done through a section 100.	Sherri Lehman	Ed Nieto Lorna Kirby	Briefed management on May 10, 2005. Shared draft reg text with CUPAs in April 2005. Further research is ongoing.
4	R-98-21	Secondary Containment	This rulemaking package will clarify requirements and delete outdated deadlines for tank integrity assessment and secondary containment. References to the NFPA codes will be updated as well.	Jan Radimsky	Dave Wright Hussein Nassiri	Under review by OLC. Workshop scheduled for June/July 2005, and will share with CUPA.
5	R-03-16	PBR for Seized Fireworks	These proposed regulations provide specific operating criteria and restrictions that assure safety and protection of public health and the environment, and help eliminate large stockpiles of seized fireworks that necessitate expensive response actions.	Sherri Lehman	Jan Smith	Workshop held on May 19, 2005. Shared with CUPA on March 29, 2005.
6	R-04-11	Article 6 - GW Monitoring	Title 22 66264.90, 66264.97, 66264.98, and 66264.100 are affected. Statutes H&SC 25150 is related. This will incorporate increased federal flexibility into CA regulations.	Jan Radimsky Karen Baker	Dave Wright Michael Choe Chris Gierre	Starting internal review.
7	R-02-02	Overloaded Dump Truck (full rule)	DTSC proposes to adopt a rule to clarify that a hazardous waste facility permit is not required for the bulk transfer of contaminated soil from a dump truck that has been dangerously overloaded, and the regulation establishes minimum protective requirements for the bulk transfer operation.	Jan Radimsky	Keith Kihara Bob Gipson	Regulations are currently being revised.

Reg No.	Package No.	Subject	Description	Branch Chief	Staff Assigned	Status
8	R-04-02	Electronic Hazardous Wastes Restrictions	Restriction of Hazardous Substances (RoHS): As required by the EWRA, by January 1, 2007, DTSC will adopt regulations to ban the sales of covered electronic devices that are banned in the European Union (EU).	Karl Palmer	Charles Corcoran Valetti Lang	DTSC is researching and monitoring implementation of ROHS in EU. Workshops to be held in early 2006. As information develops, will share with CUPA.
9	R-96-48	Cyanide Wastewater Treatment	This regulation proposes authorizing the treatment of aqueous waste containing cyanide (rinse waters only) under Permit-by-Rule.	Sherri Lehman	Michael Horner	Workshops were completed in January. The public notice package is being prepared. Shared with CUPA on May 11, 2005. Public notice planned for Summer of 2005.
10	R-97-11	Response Action	This regulation will establish standards for cleanups conducted by CUPAs pursuant to the authorities in Chapters 6.5 Health and Safety Code. The regulations will also include the qualifications for CUPAs seeking authorization to oversee corrective action at CUPA-regulated facilities in accordance with Chapter 6.5.	Karl Palmer	Nancy Ostrom	Will send to TAG. Planned for public notice June 2005.
11	R-2005-08 R-97-20 remains with full package	Mandatory Munitions Rule Adoptions (Section 100)	Adopts minor provisions required for RCRA authorization: emergency response record keeping and cleanup, plus definition of "military munitions" to support the required adoptions.	Sherri Lehman	Jan Smith	Package almost complete and then will be circulated for signature.
12	R-98-03	Waste Code Revision	DTSC proposes to adopt a rule to correct the problems associated with current California waste codes. One such problem is that currently waste codes do not indicate why the waste is hazardous. Proposed changes would address identification of the hazardous nature of the waste by establishing new state waste codes. Federal waste codes for Resource Conservation and Recovery Act wastes would remain unchanged. These are required by AB 256 (ch 61, Stats of 1997) and include changes from AB 241 (99).	Sherri Lehman	Gary Murchison	Staff completed two draft regulatory options. Internal DTSC meeting held May 11, 2005, to discuss options. Follow up meeting scheduled for June 3, 2005. Workshop to be scheduled upon finalization of option. Will share draft regulations with CUPA.

Reg No.	Package No.	Subject	Description	Branch Chief	Staff Assigned	Status
13	R-03-18	HW of Concern Reporting by Generators	These regulations will expand the scope of applicability of the Hazardous Wastes of concern regulations that were adopted by DTSC on July 7, 2003 (DTSC reference number R-03-02) to apply to "any person handling hazardous waste of concern," as required by Senate Bill 489. The provisions enacted by SB 489 were intended to increase the security of Hazardous Wastes of Concern because of the potential to use those wastes to intentionally harm human health and or the environment. Generators were not specifically included in the original rulemaking.	Jan Radimsky	Hortensia Muniz	Workshop held on March 17, 2005. Public Notice scheduled for June 2005. Shared draft regs with CUPA on April 29, 2005.
14	R-02-02	Overloaded Dump Truck (emergency rule)	DTSC proposes to adopt a rule to clarify that a hazardous waste facility permit is not required for the bulk transfer of contaminated soil from a dump truck that has been dangerously overloaded, and the regulation establishes minimum protective requirements for the bulk transfer operation.	Jan Radimsky	Keith Kihara Bob Gipson	Regulations are currently under revision.
15	R-05-XX	Additions to the List of Common Electronic HW (Appendix X)	Title 22 66260.201 and Appendix X to chapter 11. H&S Codes sections 25214.9 et seq. SB 20 (Sher), Statutes 2003, chapter 526. DTSC will adopt as a 2 year, emergency regulation as allowed by statute. Will add additional video display devices to the presumptive list of hazardous wastes. Will expand EWRA's covered electronic devices.	Karl Palmer	Charles Corcoran	Initial workshop scheduled for April 8, 2005, to discuss next steps in evaluating new devices. Regulations scheduled for adoption by December 2005. As information develops, will share with CUPA.
16	R-03-19	Authorized Treatment of Universal Electronic Devices	Title 22 66260.10, 66260.201, Apps X to chapter 11, 66273.3, 66273.33, 66273.34, 66273.40, 66273.51, 66273.52, 66273.56, 66273.82, 66273.83, and 66273.90. H&S Code 25214.9 et seq. SB 20 (Sher) Statutes 2003, chapter 526. Currently adopted as a 2 year, emergency regulation as allowed by statute. Provides alternative management standards (universal waste) for handling and treatment of universal waste electronic devices.	Karl Palmer	Charles Corcoran Valetti Lang	Final Rule public notice scheduled for February 2006. As information develops, will share with CUPA.

Reg No.	Package No.	Subject	Description	Branch Chief	Staff Assigned	Status
17	R-05-01	Conformity with Federal Manifesting Regulations	A federal rule was adopted 1/27/05 and the state will be adopting state rules to correspond with the federal rule. The regulations change the hazardous waste manifests and related requirements. They will impose a uniform manifest and prohibit state changes or additional requirements, impact load rejections, documentation for importing and exporting waste, and the display of handling codes and waste codes on a manifest. This rule relates to the Waste Code Revision rule.	Jan Radimsky	Ann Carberry	Regulations are to be adopted by February 2006. Just starting evaluation of changes needed to conform with federal rule.
18	R-02-05	Financial Responsibility (Auth)	A section 100 rulemaking adopting minor revisions to 22 CCR needed for RCRA program authorization.	Jan Radimsky	Keith Kihara	Completing internal reviews.
19	R-05-04	Treated Wood Waste Management Standards	AB 1353 requires DTSC to adopt regulations after specified consultations. Implements AB 1353 (Matthews) Statutes of 2004, chapter 597.	Sherri Lehman	Ed Nieto William Greydanus	Finalizing Fact Sheet.
20		Lead-Based Paint Debris	AB 2877 provides DTSC with the authority to adopt regulations for the management of lead based paint debris by January 1, 2008. Implements AB 2877 (Aghazarian) Statutes of 2004, chapter 175.	Karl Palmer	Nancy Ostrom	DTSC is evaluating issues. Will discuss with management.
21	R-05-11	Standardized Permit Application Process	The proposed regulations define the options available for the submittal of a standardized permit application and correct the organization of the sections applicable to standardized permits by removing them from the article applicable to schools (SHWCCAFS) and creating a new article.	Sherri Lehman	Jan Smith	Workshop scheduled for June 15, 2005. Shared with CUPA on March 29, 2005.
22		Change 2006 exemption for universal waste disposal	Current regulations allow disposal of specified universal wastes in municipal solid waste landfills until February 2006. This regulation would modify the exemption by either extending the date for the exemption or changing, which universal waste are subject to the exemption.	Karl Palmer	Loretta Ransom	Will discuss with DTSC management.
